1. Update on the number of students enrolled up to this point. At this time it looks as though we have around 63 students. We currently have 19 Full Time Resident students in the charter school. Stephani reported that numbers will continue to change as we release students who have not shown progress and also take on additional students for the year.

2. PALS testing update included with 4K through grades 2 have been completed. For a total of 7 kids being tested.

3. Stephani shared the development of the Google+Community site recently created to share additional information needed to help assist those in the VE program.

4. Blackboard Connect is a way for us to connect and share information with our VE students and parents. We anticipate BlackBoard Connect to roll out before the end of the year. We can utilize BlackBoard Connect as a reminder to encourage our VE students to maintain progress, complete assignments, and send any notifications of upcoming job fairs, field trips, etc. A better way to communicate and verify communication has been reached via telephone, email and text messages.

5. Charter Students at HS/Policies/Location.....
